**DISTRIBUTORS FOR**  
**OVER 25 YEARS**

# Sustainability in our DNA: Protecting Our Future Every Day

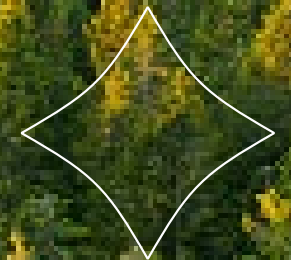

**We recognize the impact the print industry can have on the environment and are committed to sustainable practices that minimize our environmental footprint.**

Using responsibly sourced paper from well-managed forests

Phenol-free papers including BPA-free and BPS-free

Leverage solar power and energy-efficient equipment

Leading sustainable label solutions including ecoSlim™ Linerless Labels

# A Partner Who Cares About Your Sustainability Commitments

**Bringing tangible solutions to help make a true difference:**

## **Minimizing Our Footprint**

We use sustainable materials everywhere possible, developed an industry-leading sustainable label material portfolio, produce locally in the US, designed an environmentally efficient manufacturing footprint, and have strategically located facilities close to the largest markets in the country to lower our carbon footprint.

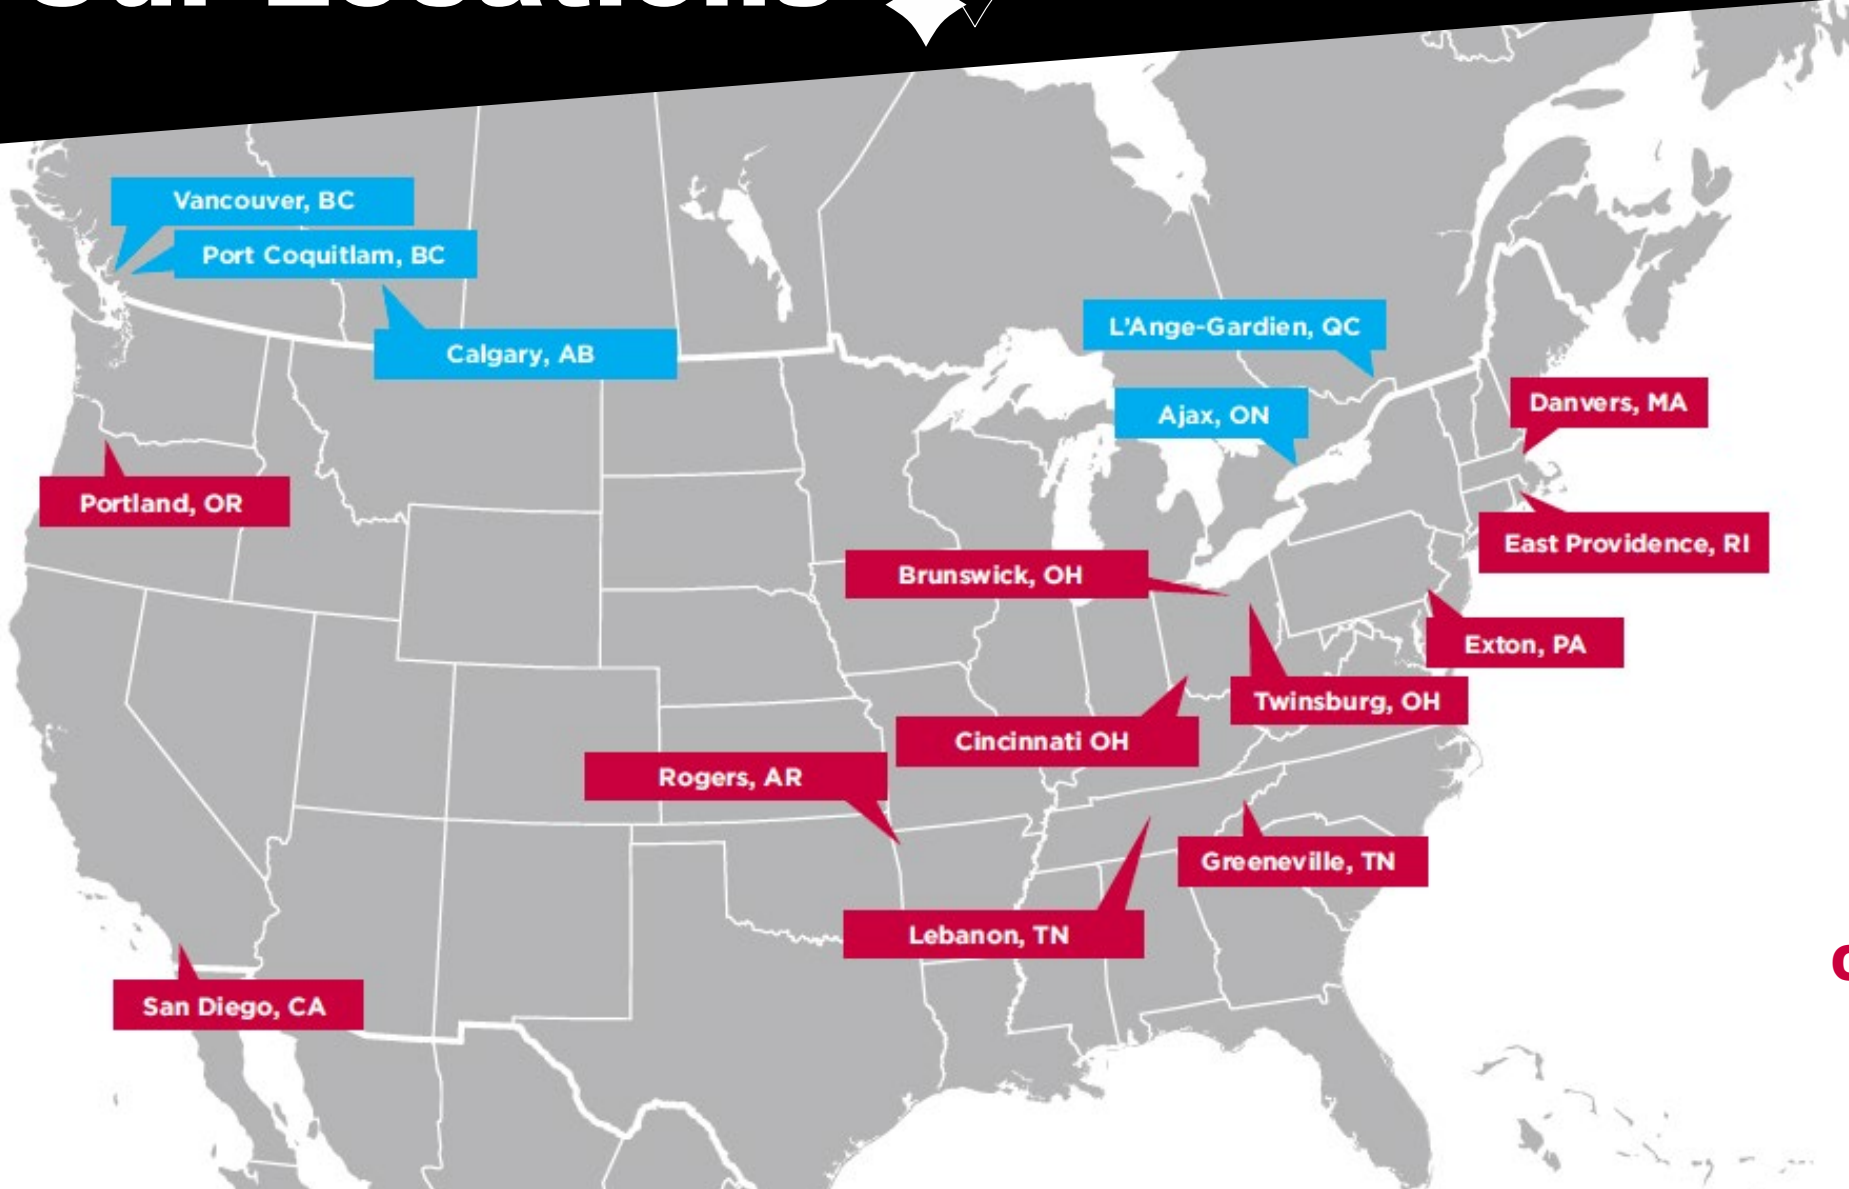

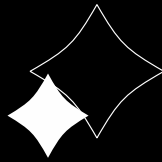

## **Sustainable Products for All**

We provide an extensive list of sustainable label solutions that continually grows and adapts to meet the evolving needs of our customers and the markets they serve. We promise to do no harm in our products with phenol-free papers and ethically sourced materials.

## **Supporting Local Communities**

We are local, made in Canada and in the US, employing over 700 dedicated team members. We are innovators in the industry, support our communities, and have been a trusted partner with our customers for over 25 years. We demonstrate our value as a long-term partner with our proven track record, proven product quality, proven technical support, and proven service.
